

# RLM-G808

## AIRSPIDER – 8 TYRE INFLATION ASSEMBLY

RLM – G808 AirSpider Manifold

RLM – G808 AirSpider Kit

### Features

- The RLM Air-Spider Kit –**Proudly Australian made** -: a multipurpose regulated air transfer manifold, ideally suited for mobile tyre service vehicles, transport fleets or general workshops.
- The 8 port outlet will balance or self regulate the tyre inflation pressures to a preset level - on up to 8 tyres simultaneously.
- Allows the tyre technician to perform other duties or tasks while the Air-Spider controls the tyre inflation process.
- Use the manifold to balance / equalize pressures on multiple tyres.
- Improve workshop productivity - Convert a single airline into 8 outlets.
- Compliant to Australian Standard: AS2971-2
- Engineer designed
- Operations Manual
- RLM Backup Support – Spare Parts - Servicing

### Components

- Aluminum Alloy Manifold with Carry Handle
- Dial Gauge – 63mm
- Hi-Flow Pressure Regulator
- Operating Instructions
- Robust storage unit, with pull out handle and large wheels for easy tow mobility!
- Nitto Couplers – One Touch
- Hi-Flex Airlines
- Nitto Plugs
- Dual Foot Lock-on Air Chucks
